ANISH TIWARI

Gorakhpur, Uttar Pradesh • anishtiwari730@gmail.com • +91 7307760680 • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Computer Science undergraduate and Full Stack Developer with strong core foundations in **Java**, **Object-Oriented Programming (OOP)**, and modern web architectures. Proficient in engineering end-to-end applications across relational (**MySQL**) and NoSQL (**MongoDB**) databases alongside React.js and Node.js ecosystems. Experienced in designing modular RESTful APIs, real-time communication channels, and user-centric web platforms optimized for scalability, security, and clean code standards.

TECHNICAL SKILLS

Languages:	Java, JavaScript (ES6+), SQL, HTML5, CSS3
Core Concepts:	Object-Oriented Programming (OOP), Data Structures & Algorithms, RESTful Architecture
Databases:	MySQL, MongoDB, Mongoose, Pinecone (Vector DB)
Frameworks & Libs:	React.js, Node.js, Express.js, Tailwind CSS, Socket.io
Developer Tools:	Git, GitHub, Postman, VS Code

PROFESSIONAL EXPERIENCE

IBM PBEL Program (Project-Based Experiential Learning) — **Virtual Intern**

- Architected scalable web applications by integrating React.js, Node.js, Express.js, and MongoDB using modular OOP principles.
- Implemented secure RESTful APIs with role-based JWT access control and optimized backend persistence to ensure high performance.
- Developed responsive, mobile-first interfaces using React.js and Tailwind CSS, boosting accessibility and user engagement.
- Applied defensive error-handling mechanisms and secure coding standards to deliver production-ready deployments.

FEATURED PROJECTS

SocialConnect – Community Engagement Platform — **Apr 2026 – Jul 2026**

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io

- Built an interactive full-stack social platform enabling user authentication, content publication, dynamic feeds, and discussions.
- Integrated **Socket.io** to power real-time bi-directional messaging and live notification broadcasting with minimal latency.
- Strengthened system security via bcrypt password hashing, JWT session verification, and custom Express route-guard middleware.
- Designed indexed MongoDB schemas to optimize high-throughput retrieval across active user feeds and relationship matrices.

MediChat – AI Medical Assistant — **Feb 2026 – Mar 2026**

Tech Stack: React.js, Node.js, Express.js, MongoDB, Pinecone, Groq API

- Engineered an intelligent conversational medical assistant leveraging **Groq API** for low-latency, real-time responses.
- Integrated **Pinecone Vector Database** to facilitate semantic search and medical context retrieval, boosting factual precision.
- Developed an interactive React UI featuring chat history persistence, session management, and responsive markdown rendering.
- Constructed resilient Node.js middleware for query sanitization, payload rate limiting, and secure external API consumption.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University (AKTU) — **2023 – 2027**

Bachelor of Technology (B.Tech) in Computer Science & Engineering

CERTIFICATIONS & ACHIEVEMENTS

- **Hack India 2025:** Participated in the national-level hackathon, collaborating on open-source solutions under rapid development cycles.
- **IBM PBEL Certificate:** Completed industry-recognized program covering full-stack software development, architectural design, and API engineering.
